

Healthcare Effectiveness Data and Information Set (HEDIS®) MY2020 Texas Medicaid Measures and Key Dates

Why HEDIS® is Important

Blue Cross and Blue Shield of Texas (BCBSTX) complies with state and national demands for accountability by collecting performance data using HEDIS®. The results are used to ensure that our members are getting the best health care possible, so it is important that our providers understand the HEDIS® specifications, guidelines and return medical records requested for audit.

We want to do everything we can to make this process as easy as possible. Below we included a list of the HEDIS® Hybrid MY2020 Measures and important dates.

HEDIS® Hybrid MY2020 BCBSTX Medicaid Measures
