Learning Opportunity: Pediatric Brain Health Summit

November 5 - 6, 2020 | 11 a.m. to 2 p.m.

The Summit is part of the Texas Pediatric Brain Health Initiative, a multi-sector, multi-agency collaboration focused on the prenatal to 3-year-old developmental window. The purpose is to use the current science on pediatric brain development to help inform and support programs that promote community resilience and development in Texas Children. The summit will have several speakers as well as collaboration between community organization and medical practice.

The summit will focus on building stronger connections between pediatric providers and community-based organizations that provide support and services for our families.

When: November 5 - 6, 2020 from 11:00 a.m. to 2:00 p.m.

Cost: Free and open to the public

Topics:

- Policies and practices that help support families and mitigate adversity
- Why screen for social determinants of Health, adverse childhood experiences, and postnatal depression in pediatric setting?
- Creating connections between community organizations and medical practice
- Things that pediatric practitioners can do to support families
